### // Pyromation Celebrates Its 50th Year of Success

From its humble beginnings as a two-man sales and service operation designing and installing control systems for industrial equipment, Pyromation, Inc. has grown to one of the most respected names in the temperature sensor business. Over the last 50 years, the Company – headquartered in Fort Wayne, Indiana – has become one of the largest temperature sensor manufacturers in North America, and boasts sales to over 35 countries.

### // 15,000 Sq. Ft. Facility Expansion Enhances Production Capabilities

In July of 2011, Pyromation broke ground for a 15,000 sq. ft. expansion to the SW end of the current facility. Construction was completed and move-in started in January of 2012. Plant operations are continuing as the expansion and transfer of some equipment occurs. Everything is expected to be in place by the second quarter of this year, with an open house targeted for June.

The expansion will increase Pyromation's capabilities and capacity, particularly in the thermowell product line. The company's expansion efforts include investment in additional technology and manufacturing equipment.

This is the latest issue of a quarterly e-newsletter that will keep you posted on industry news and current happenings at Pyromation. Please feel free to forward to your staff & customers. If you know of anyone else in your organization that should receive this e-newsletter, please forward their e-mail address to [sales@pyromation.com](mailto:sales@pyromation.com).

### // 2012 Product Training Dates @ Pyromation

Pyromation is conducting product training at its Fort Wayne facility on these two dates in 2012:

- April 18-19
- July 18-19

To reserve a spot for you or your staff, contact Michelle at (260) 918-1554 or [sales@pyromation.com](mailto:sales@pyromation.com)

We can also set up product training at your location if that is your preference.

### // What Else is New at Pyromation?

**External Hydrostatic Testing -** We have installed the equipment and have the expertise to conduct this testing on thermowells at our plant, ensuring quality analysis, documentation and quick turnaround for your order.

**Wake Frequency Page -** Thermowell designs can be submitted to our product engineers for analysis by inputting data on [this page](#) at [www.pyromation.com](http://www.pyromation.com).

**Check us out on Facebook -** Yes, Pyromation is utilizing Social Media and has a company page set up. "Like" us and you'll receive the latest news and happenings at Pyromation.
